

June 29, 2023

Dear Anthony Wayne Local Schools Stakeholders:

The Anthony Wayne Local Schools Board of Education is beginning the first steps toward achieving the goals of the District's Strategic Plan and Facilities Master Plan in support of our mission to empower students to be future ready.

During its regular June meeting this morning, the Board approved Resolutions of Necessity to take the first steps toward placing a 2.60-mill Bond Issue and new 2.9-mill Operational Levy on the November 2023 election ballot.

The proposed Bond Issue would provide approximately \$70.8M for building deferred maintenance projects, construction of new classrooms and facility spaces, and renovations and new construction of certain athletic facilities. The proposed Operational Levy would provide approximately \$3.9M per year to meet the instructional needs of our students, add all-day everyday kindergarten, support special education services and safety initiatives, and cover increasing materials expenses.

Very specific details about these ballot proposals and how the funds would be used is available on the District website at [www.AnthonyWayneSchools.org/Levies](http://www.AnthonyWayneSchools.org/Levies). We highly encourage you to review this information along with the [District's Strategic Plan](#) and [Facilities Master Plan](#).

If you have questions, please direct them to [planning@anthonywayneschools.org](mailto:planning@anthonywayneschools.org).

Sincerely,

Dr. Jim Fritz, *Superintendent*  
Anthony Wayne Local Schools
