Public Comment Sought

Each year, Anthony Wayne Schools receives federal funds under Individuals with Disabilities Education Act. These funds are used to employ some special education teachers and special education aides at all six of our Anthony Wayne School buildings. In addition, the money has been expended for computers, printers, and software for all special education rooms; textbooks on CD; instructional materials for all special education classrooms; and assessment materials needed to conduct multi-factored evaluations. Individuals with questions, comments, or suggestions for use of these funds should contact Angela Gardner, Student Services Supervisor Grades 7-12 or Jennifer Karl-Thompson, Student Services Supervisor, Grade Preschool – 6th at 419-877-5377.
