FROM THE DESK OF MRS. MURRY

Well, here we are at the conclusion of the 2nd quarter of school! It's been a good start to 2022, as the students and staff returned from winter break. The expected spike in COVID-19 cases and quarantine situations has been occurring, but we knew this would take place. We appreciate everyone's assistance in keeping students and staff

safe. The most important safety procedure is not sending your child to school if they are exhibiting COVID-19 symptoms. Feel free to contact Mrs. Birkemeier if you have any questions regarding the protocols or what steps you need to take.

As we transition into the 3rd quarter and return from break, our emphasis on the social emotional learning is still part of each day. Teachers and students work daily on building their classroom community directly and indirectly. This is also something that can be practiced at home. Here is an article with some ideas that could be used at home: [SEL at home](#)

Thank You MAPS

On behalf of the staff, I want to thank MAPS for being so supportive in school and out of school to our students, families, and staff. The Board and their various committee chairs and volunteers have gone above and beyond to find ways to hold events and still follow all COVID-19 protocols and keep everyone safe. Please make sure you are on the lookout for their communications via hardcopies, emails, and Facebook. We are excited for Imagination Station to make a visit to the school at the end of this month. They provide hands-on activities for all of the students. MAPS sponsors this enrichment program, as well as staffing it for two days.

Weather Reminders

The cold weather is here and per the graphic, we will be going outside whenever it is possible. If there is snow on the playground or grass areas, appropriate clothing (boots and snow pants) is required to play in those areas. Those students not dressed for snowy areas will still be able to play on the blacktop. Please make sure your child has a hat, mittens/gloves and a heavy coat on these cold days. If you need assistance with getting these items, please contact the school. We have plenty of resources to make sure students are dressed appropriately for the weather.

COUNSELOR'S CORNER

Fourth Grade

This week, I visited all of the fourth grade classrooms to present a Career Awareness lesson. Prior to the start of the lesson, each student completed a brief career interest inventory survey that explored various student interests and used their strengths to identify career clusters of interest. The career clusters included: Human Services, Health Sciences, Communication Services, Business Services, Technical Sciences, and Agricultural Sciences. After the students completed the survey and identified clusters of interest, we explored each career cluster by learning about the subcategories of the cluster and discussing various student interests and strengths that are aligned with each career cluster, as well as specific careers within the cluster.

This lesson helped the students to identify potential careers of interest, as well as to learn about careers that were new to them. We discussed how our interests and strengths can help to point us in the direction of various careers for further exploration, which will be of benefit to the students when they begin to think more about possible careers and courses of study for school in the future. We also discussed how our interests and skills can change over time, but that it is beneficial to start thinking about our interests and strengths now and how we can explore our interests to better aid in future career planning.

All Grades

It was great to see all of the students back after winter break! The second half of the school year promises to be busy and rewarding for both the students and staff. Students recently participated in the next round of the spinning of the Character Wheel, and many deserving students will also enjoy "Lunch with the Principal" in the near future for demonstrating excellent character. Please see the attached list of student winners for Character Wheel and Lunch with the Principal. Thank you, parents, for the ongoing support that you provide in the education of your son/daughter. 2022 is going to be a great year!

Mr. Christopher Buehrer
Monclova School Counselor

POP TAB COLLECTION FOR THE RONALD

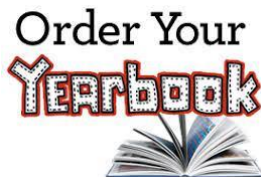

MCDONALD HOUSE

Our school is collecting pop tabs for the Ronald McDonald House. By collecting pop tabs, we benefit the Ronald McDonald House Charities and can also help our school! A collection box is located outside of

the office. Please help us donate by bringing in Pop Tabs.
